Students will present their general knowledge about this disease. They talk about the influences of this disease on people's life, economy, society, health, spirit and the difficulties and challenges that human beings are facing with. When the Covid 19 Pandemic broke out and lasted for a long time in big cities, millions of workers were jobless and found unable to continue living in the cities. However, thanks to the government's concern and the power of the solidarity, consensus, help and impersonal stare of Vietnamese people, residents' life is improving considerably.</p> <p>Through the talk show, students are aware of protecting not only themselves but also their relatives and want to share some following messages:</p> <ul style="list-style-type: none"> <li>- having a full understanding about Covid 19 to prevent it from spreading to public.</li> <li>- not keeping out of patients ever catching this disease.</li> <li>- uniting and joining hands to stay safe and push back the pandemic.</li> </ul>

				<p>Vietnam, a populous country, the health system is not as advanced as developed countries and the budget is limited. But so far, we can see that Vietnam has done a good job of preventing and fighting against epidemics, such as early detection, isolation and strong quarantine. Moreover, people has taken a series of proactive measures to prevent the spread of Covid 19 such as:</p> <ul style="list-style-type: none"> <li>– Wash our hands frequently and avoid touching our eyes, nose and mouth with unwashed hands.</li> <li>– Just go out when necessary.</li> <li>– Keep distance of at least 2 meters from other people.</li> <li>– Shouldn't contact with people who comes from epidemic area.</li> <li>– When experiencing symptoms of fever, coughing and shortness breath, dial local health authorities for further instructions on safe health examination and install Bluezone application for being update with risk of Covid 19 infection.</li> </ul> <p>In short, we want to say: In the 19 anti-covid constitution we must strictly abide by the policies of the state, strictly implement measures to isolate and treat Covid in the most effective way.</p>

It is causing a severe impact on the economy and human society. Especially, it heavily damages the health and mental health of teenagers. Because of this epidemic, we have to study online at home. It also has a serious impact on physical health.</p> <p>The COVID 19 virus affects the lungs, impairs the sensory nervous system, and also negatively affects other organs. Many families lost their loved ones, lots of</p>

				<p>children became orphans. It presents an unprecedented challenge to public health, food systems and works. But we shouldn't be so pessimistic because everyday we still see the images of the doctors and nurses who are working hard to fight for the lives of patients. We need to be aware of the danger of the COVID-19 to protect their health, families, and community like complying with the 5K message.</p> <p>We believe that scientists will soon find the medicine to cure COVID-19. At that time, we can go to school, live peacefully in a world without the coronavirus. We want to remind everyone that: stop being apathetic and insensitive. Let's join hands and keep optimistic to overcome it.</p>
10	THCS Lê Quý Đôn	TEAM 2	<a href="https://youtu.be/ynPneoreBQw">https://youtu.be/ynPneoreBQw</a>	<p><b>“Let's work together to fight against covid 19”</b></p> <p>As we know, now there is an outbreak of coronavirus which was first identified in 2019 in Wuhan, China.. The Covid-19 epidemic has had a strong impact on our country and all over the world. It has affected our lives and studying.</p> <p>(Hân) The covid 19 pandemic has affected our lives. Indeed, The covid 19 pandemic has changed a lot of things in our life. We feel scared and worried. The Covid 19 pandemic has a strong impact on our studying. Currently, online learning is the form of learning in our school. We have many difficulty in our studying.</p> <p>Therefore, you, me and all our teenagers shouldn't let ourselves be subjective and neglect before the epidemic. What should we do to help push back the epidemic and bring our life back to peace?</p> <p>First, comply with the 5k rules.</p> <p>Second, get vaccinated when it's your turn.</p> <p>Third, join hands to propagate to everyone to improve their awareness about the danger of the covid 19 pandemic.</p> <p>Fourth, do exercise and eat healthily.</p> <p>Finally, don't share incorrect information about the covid 19 on the internet. We hope that we will soon push back the covid 19 pandemic. Now <b>let's work together to fight against the covid 19</b>. We dare to win, dare to beat the pandemic</p>

Millions of people were driven into poverty. Many of shops and restaurants were going to bankrupt. Hundreds of people have been out of work. In addition to, it killed more people than we realize. Hundreds of children lost their parents because of the virus. We know that the Vietnamese people stay united to defeat the virus. We would like to say thank you to all the doctors, healthcare workers, policemen, youth organizations, volunteers, soldiers... that work under pressure to defeat the virus. We must carry out the 5K rules in Vietnamese to protect ourselves from the virus. We hope that in the nearest future we will defeat the virus</p>

We want to share our feelings about impacts of Covid 19 pandemic on some fields of our life in Viet Nam.</p> <p>The local authorities carried out the isolation measures. Many people have to live in isolated areas. The pandemic put the staff of doctors under pressure. Unfortunately, the isolation measures has influences on many fields like farming, transporting, travelling and education. As a result, farm products couldn't be exported. Farmers become the debtors. Transport companies had to stop working, so the owners, as well as the employees have many difficulties in their life. During the Covid 19 pandemic, students have to study online to be safe. However, there are some drawbacks of learning online. This has caused the negative effect to the educational quality.</p> <p>The message we want to send to everyone is that we should obey the 5K rules including:</p> <ul style="list-style-type: none"> <li>+ Facemasks,</li> <li>+ Disinfection,</li> <li>+ No gathering,</li> </ul>

We couldn't join some activities that was very useful for teenagers in secondary schools. We haven't hanged out with their friends and joined other activities.</p> <p>We felt quite sad, lonely, stressful and had pressure. We couldn't go to school to meet and discuss with teachers and friends. We also couldn't join extracurricular activities or group activities held by teachers that helped them form a good personality. Depending on electronic devices and social networks without going out makes their communication skill more difficult.</p> <p>The messages we want to send to everyone:</p> <ul style="list-style-type: none"> <li>+ Obey the 5K rules strictly!</li> <li>+ Keep calm, be confident to overcome the pandemic!</li> <li>+ Don't be too eager to go out when it's not necessary!</li> </ul> <p>We hope the pandemic will stop as soon as possible so that they can come back to school.</p>
